

We're All in 2019 Together

Happy New Year! With 2019 full of possibilities, we encourage you to give through the United Way of Tompkins County. As a Community Campaign Co-Chair Team, we believe there is no other community agency where our gifts make such a powerful impact.

Remember, we're not asking you to *give to* the United Way, we *give through* the United Way—to strategic and trusted partners who are doing amazing work in our local community. United Way funded partners support local needs in Health, Education, and Financial Stability, strengthening people in so many ways. When our people are strong, our communities become stronger, too.

We have an ambitious goal of \$1.85 million dollars, and with 82% raised to date we look to both new and re-engaging donors to meet needs and strengthen our community. To succeed, need your help! 100% of every donation supports 100 local programs that strengthen our community with over 100,000 direct impact moments.

Please give as generously as you can. Let your co-workers and neighbors know that we are all in this together. Thank You!
